PROJECTS

Portfolio ([GitHub - Omkarkothapally/Portfolio](#))

Developed a Portfolio to showcase my skills and projects.

My portfolio showcases my skills and experience in software engineering, with a focus on web development. I have a strong understanding of frontend development, including HTML, CSS, JavaScript, React JS.

Technologies used: JavaScript, CSS, Bootstrap,HTML

News API ([GitHub - Omkarkothapally/News-App](#))

Developed a React.js frontend for a News API, displaying real-time articles from various sources.

Integrated RESTful endpoints and optimized data fetching with caching. Enhanced user experience with responsive design and intuitive interface.

Technologies used: React JS, JavaScript, CSS, Bootstrap,HTML

Plant Disease Detection

Utilized image processing techniques and deep learning algorithms to analyze images of plant leaves and accurately identify various diseases such as leaf spots,blights and molds.

Technologies used: Machine learning

CERTIFICATES

1. [Frontend developer \(React\)](#)
2. [SQL \(Basic\)](#)
3. [Introduction to java programming](#)
4. [AWS Educate Getting Start with Compute](#)
